PROFESSIONAL SUMMARY

Senior Linux System Administrator with 8+ years of experience managing enterprise Linux infrastructure in mission-critical banking environments. Expertise in Red Hat Enterprise Linux (RHEL), IBM AIX, OpenShift, VMware Cloud Foundation (VCF), Enterprise Storage, High Availability, Disaster Recovery, Automation, and Security Hardening. Delivered large-scale infrastructure projects, private cloud and virtualization migrations, CIS-compliant environments, and resilient production platforms supporting 18,000+ users across 1,200+ branches. Proven track record of improving system reliability, security, and operational efficiency through automation, performance tuning, proactive monitoring, and continuous improvement.

CORE COMPETENCIES

Linux/AIX Infrastructure Management	SAN/NAS Storage Administration	Security Hardening & CIS Compliance
Red Hat OpenShift Administration	Root Cause Analysis & Escalation	High Availability & Disaster Recovery
VMware VCF / vSphere / ESXi	Bash / Ansible Automation	Production Support & Operations
Change Management & SLA	Incident Management	Team Leadership & Mentoring

TECHNICAL SKILLS

Operating Systems: RHEL 7/8/9, CentOS, Ubuntu, Oracle Linux, SUSE, AIX 7.x, Windows Server.

Hardware: IBM Power 7/8/9, Oracle Exadata, Brocade/Connectrix SAN Switches, Dell PowerEdge, Cisco UCS, HP Rack Servers.

Containers & Cloud: Red Hat OpenShift, Kubernetes, Docker, Podman, Azure, VMware Cloud Foundation (VCF).

Storage: IBM SVC/FlashSystem/V7000, Dell EMC PowerMax/PowerStore, LVM, Multipathing, iSCSI, NFS.

Virtualization: VMware vSphere, ESXi, VMware SRM, KVM, Nutanix AHV, Hyper-V, VirtualBox.

High Availability: Pacemaker, Red Hat HA Clusters, VMware SRM, IBM Spectrum Virtualization.

Security: SELinux, PAM, CIS Level 3, PCI, Patch Management, Vulnerability Remediation.

Networking: TCP/IP, DNS, DHCP, SSH, NTP, Firewall, IPTables, Teaming.

Backup & Recovery: Veritas NetBackup, Veeam, DR Planning & Testing.

Automation: Bash Scripting, Ansible, Python, Red Hat Satellite.

Monitoring: NMON, Ipar2rrd, VMware Aria Operations (vROps).

PROFESSIONAL EXPERIENCE

Senior System Administrator

Dec 2021 – Dec 2025

Agricultural Bank of Egypt | Cairo, Egypt | Banking & Financial Services

- Led Linux & AIX infrastructure operations for 1,200+ branches and 18,000+ end users. Served as the primary technical escalation point, ensuring 99.9%+ uptime and SLA compliance across HQ and DR sites.
- Directed end-to-end migration to the Finacle Core Banking System with the Infosys team, achieving zero-downtime cutover from legacy platforms, including SAS, XCS, Cortex, and DWH environments.
- Administered Red Hat OpenShift container platforms: cluster/operator upgrades, RBAC management, Red Hat Quay registry integration, and persistent storage via OpenShift Data Foundation (ODF).
- Architected Red Hat HA clusters using Pacemaker. Automated OS patching and configuration management via Ansible and Red Hat Satellite, achieving CIS Level 3 compliance per CBE security regulations.
- Executed large-scale P2V/V2V migrations (120+ VMs) from Nutanix AHV, KVM, and Hyper-V to VMware Cloud Foundation (VCF) using VMware Converter and Veeam. Implemented site-to-site DR replication using VMware SRM.
- Managed Veritas NetBackup and Digital Wallet platform infrastructure. Mentored junior engineers and drove operational knowledge-sharing to standardize team practices.

Senior UNIX System Administrator

Dec 2020 – Dec 2021

ISKY Development | Egypt | IT Services & Banking Solutions

- Administered enterprise AIX infrastructure, including LPARs, VIOS, OS/firmware updates, and performance tuning on IBM Power 7/8/9 hardware managed via HMC, maintaining 99%+ availability for banking workloads.
- Managed enterprise SAN storage: IBM FlashSystems, Dell EMC PowerMax/PowerStore, and Brocade/Connectrix SAN fabric switches — LUN provisioning, zoning, multipathing, and fabric health monitoring.

- Operated enterprise server hardware, including Dell PowerEdge, Cisco UCS, HP Rack Servers, and Oracle Exadata, ensuring proactive fault remediation and platform reliability.

System Engineer

Mar 2020 – Dec 2020

Ecotel for Digital Transformation | Egypt | IT Infrastructure & Digital Services

- Administered production Linux environments (RHEL, Oracle Linux, SUSE, Ubuntu). Automated patching and provisioning at enterprise scale via Red Hat Satellite while enforcing performance tuning and security compliance standards.
- Deployed Linux infrastructure for Oracle Database (single-node and RAC) environments. Performed system hardening, proactive monitoring, and cross-functional collaboration to ensure production stability and operational continuity.

System & Storage Administrator

May 2019 – Mar 2020

Intelligent Systems | Egypt | Enterprise IT Solutions

- Implemented IBM SVC, FlashSystem, and V7000 storage platforms with Global Mirror/Metro Mirror replication. Managed IBM Spectrum Virtualization for SAN failover and business continuity operations.
- Deployed IBM WebSphere on AIX, integrated lpar2rrd for capacity planning, and designed NMON-based monitoring for real-time performance visibility across AIX and Linux systems.

Linux System Administrator

Aug 2017 – May 2019

Fiber Apps | Egypt | Technology & Software Services

- Managed user lifecycle, PAM authentication, and RBAC access controls across enterprise Linux systems. Performed kernel-level performance tuning and application-layer troubleshooting.
- Deployed and managed Trend Micro and Kaspersky endpoint security agents on Linux systems, hardening security posture and reducing threat exposure across enterprise endpoints.

KEY PROJECTS

- Finacle Core Banking Infrastructure Implementation
- SAS Anti-Money Laundering (AML) Platform Implementation
- VMware Cloud Foundation Migration

CERTIFICATIONS

[Red Hat Certified Engineer \(RHCE\)](#)

[Red Hat Certified System Administrator \(RHCSA\)](#)

[VMware Cloud Foundation Administrator \(VCF\)](#)

[VMware Certified Professional - Data Center Virtualization \(VCP-DCV\)](#)

[IBM Certified Specialist - Storage Technical](#)

[IBM FlashSystem Fundamentals](#)

[IBM Power Systems Enterprise Linux Technical](#)

[IBM Power Systems Solution Foundation](#)

[Nutanix Certified Professional - Multicloud Infrastructure \(NCP-MCI\)](#)

[Nutanix Certified Associate \(NCA\)](#)

EDUCATION

Bachelor of Engineering - Computer Systems & Engineering

Al-Azhar University, Cairo, Egypt | 2012 - 2017

Graduation Project: Smart Blind Stick - Grade: Excellent

LANGUAGES

Arabic: Native Proficiency **English:** Professional Working Proficiency
